

Available Services

Central Tablelands Local Land Services (LLS): Offers expert advice and support on land management, pasture improvement, livestock health, biosecurity, and weed control. LLS also runs workshops and can help landowners apply for grants or funding for environmental projects.

NSW Rural Fire Service (RFS): Offers bushfire preparedness information, property assessments, and permits for hazard reduction burns, which is vital for rural landowners in fire-prone areas.

NSW Department of Primary Industries (DPI): Provides technical resources and tools for farming, water usage, pest management, and rural innovation.

WaterNSW: Manages water licensing and waterway health, which is important for landholders with access to creeks, rivers, or dams.

Property Planning and Mapping Tools: Services like FarmMap4D, NSW Globe, or council GIS tools can assist landowners with property mapping, soil types, and land capability.
